BBA

Molecular Basis of Disease

Vol. 1225, 1994

Cumulative Contents

Editorial vii

Information for Contributors ix

Minireviews

Disease processes in epithelia: the role of the actin cytoskeleton and altered surface membrane polarity
J. Leiser and B.A. Molitoris (USA) 1

Stomatin: a putative cation transport regulator in the red cell membrane
G.W. Stewart, A.C. Argent and B.C.J. Dash (USA) 15

Regular Papers

Protein and DNA sequence analysis of a 'private' genetic variant: albumin Ortonovo (Glu-505 → Lys)
M. Galliano, L. Minchiotti, P. Iadarola, M. Stoppini, P. Giagnoni, S. Watkins, J. Madison and F.W. Putnam (Italy, USA) 27

A study on in vitro glycation processes by matrix-assisted laser desorption ionization mass spectrometry
A. Lapolla, C. Gerhardinger, L. Baldo, D. Fedele, A. Keane, R. Seraglia, S. Catinella and P. Traldi (Italy, UK) 33

Control of sorbitol metabolism in renal inner medulla of diabetic rats: regulation by substrate, cosubstrate and products of the aldose reductase reaction
R.W. Grunewald, I.I. Weber, E. Kinne-Saffran and R.K.H. Kinne (Germany) 39

A disorder of collagen biosynthesis in patients with cerebral artery aneurysm
K. Majamaa and V.V. Myllylä (Finland) 48

L-2-Hydroxyglutarate dehydrogenase: identification of a novel enzyme activity in rat and human liver. Implications for L-2-hydroxyglutaric acidemia
G.A. Jansen and R.J.A. Wanders (Netherlands) 53

Multiple Interactions Between Human Vitronectin and *Staphylococcus aureus*
O.D. Liang, M. Maccarana, J.-I. Flock, M. Paulsson, K.T. Preissner and T. Wadström (Sweden, Germany) 57

Heterogeneity of mutations in Maple Syrup Urine Disease (MSUD): screening and identification of affected E1α and E1β subunits of the branched-chain α-keto-acid dehydrogenase multienzyme complex
Y. Nobukuni, H. Mitsubuchi, Y. Hayashida, K. Ohta, Y. Indo, Y. Ichiba, F. Endo and I. Matsuda (Japan) 64

A ^{31}P and ^{1}H-NMR investigation in vitro of normal and abnormal human liver
J.D. Bell, I.J. Cox, J. Sargentoni, C.J. Peden, D.K. Menon, C.S. Foster, P. Watanapa, R.A. Iles and J. Urenjak (UK) 71

Plasma membrane recycling in CFTR-expressing CHO cells
S. Dho, S. Grinstein and J.K. Foskett (Canada) 78

Aflatoxin B_1-binding proteins in primary cultured hepatocytes of chicken embryo: studies in vivo and in vitro
M. Iwaki, S. Kumagai, Y. Akamatsu and T. Kitagawa (Japan) 83

Hb Villaverde [β 89 (F5) Ser → Thr]: the structural modification of an intrasubunit contact is responsible for a high oxygen affinity
H. Wajcman, J. Kister, D. Promé, F. Galacteros and F. Gilsanz (France, Spain) 89

Tissue distribution of cytochrome *c* oxidase isoforms in mammals. Characterization with monoclonal and polyclonal antibodies
J.-W. Taanman, R.E. Hall, C. Tang, M.F. Marusich, N.G. Kennaway and R.A. Capaldi (USA) 95

Effect of the nephritogenic autoantibody of Heymann's nephritis on plasminogen-binding to Gp330 and activation by urokinase
J.J. Kanalas (USA) 101

Rapid Report

Amplification of human APO(a) kringle 4-37 from blood lymphocyte DNA
D. Pfaffinger, J. Mc Lean and A.M. Scanu (USA) 107

Reviews

Phosphoinositide metabolism, aging and Alzheimer's disease
J. Bothmer and J. Jolles (Netherlands) 111

In vitro and in vivo evidence for the role of HDL in reverse cholesterol transport
M.N. Pieters, D. Schouten and T.J.C. Van Berkel (Netherlands) 125

Regular Papers

Arg-129 plays a specific role in the conformation of antithrombin and in the enhancement of factor Xa inhibition by the pentasaccharide sequence of heparin
S. Najjam, G. Chadeuf, S. Gandrille and M. Aiach (France) 135
Tri-Calciphor (16,16-dimethyl-15-dehydroprostaglandin B_1 trimer)-mediated mitochondrial Ca^{2+} movements: modulation by phosphate
S. Uribe and T.M. Devlin (USA, Mexico) 144
Guanine nucleotide regulatory protein alterations in young Milan hypertensive strain rats
C.J. Clark, G. Milligan and J.M.C. Connell (UK) 149
Ferrylmyoglobin formation induced by acute magnesium deficiency in perfused rat heart causes cardiac failure
F. Wu, B.T. Altura, J. Gao, R.L. Barbour and B.M. Altura (USA) 158
Enhanced cytochrome oxidase activity and modification of lipids in heart mitochondria from hyperthyroid rats
G. Paradies, F.M. Ruggiero, G. Petrosillo and E. Quagliariello (Italy) 165
Induction of metallothionein by superantigenic bacterial exotoxin: probable involvement of the immune system
S. Choudhuri, J.M. McKim Jr. and C.D. Klaassen (USA) 171
Hypochlorite oxidation causes cross-linking of Lp(a)
A.M. O'Connell, S.P. Gieseg and K.K. Stanley (Australia) 180
Screening for ferrochelatase mutations: molecular heterogeneity of erythropoietic protoporphyria
X. Wang, M. Poh-Fitzpatrick, S. Taketani, T. Chen and S. Piomelli (USA, Japan) 187
Glycolysis and glucose oxidation during reperfusion of ischemic hearts from diabetic rats
J. Gamble and G.D. Lopaschuk (Canada) 191
Increased oxidizability of plasma low density lipoprotein from patients with coronary artery disease
H.-C. Chiu, J.-R. Jeng and S.-M. Shieh (ROC) 200
Non-competitive inhibition of P-glycoprotein-associated efflux of THP-adriamycin by verapamil in living K562 leukemia cells
E. Pereira, M.N. Borrel, M. Fiallo and A. Garnier-Suillerot (France) 209
Effect of liposomally encapsulated MTX-DMPE conjugates upon TNF_α and PGE_2 release by lipopolysaccharide stimulated rat peritoneal macrophages
A.S. Williams, N. Topley and B.D. Williams (UK) 217
Isoenzyme-specific quantitative immunoassays for cytosolic glutathione transferases and measurement of the enzymes in blood plasma from cancer patients and in tumor cell lines
X.-Y. Hao, V.M. Castro, J. Bergh, B. Sundström and B. Mannervik (Sweden) 223

Rapid Report

Effect of endotoxin on lipid order and motion in erythrocyte membranes
D.A. Butterfield, B. Sun, S. Bellary, W.A. Arden and K.W. Anderson (USA) 231

Reviews

The Niemann-Pick C lesion and its relationship to the intracellular distribution and utilization of LDL cholesterol
P.G. Pentchev, R.O. Brady, E.J. Blanchette-Mackie, M.T. Vanier, E.D. Carstea, C.C. Parker, E. Goldin and C.F. Roff (USA, France) 235
The biochemistry and clinical features of galactosialidosis
Y. Okamura-Oho, S. Zhang and J.W. Callahan (Canada) 244

Regular Papers

The involvement of the Ca-dependent K channel and of the KCl co-transport in sickle cell dehydration during cyclic deoxygenation
M. Apovo, Y. Beuzard, F. Galacteros, D. Bachir and F. Giraud (France) 255
5-Aminolevulinic acid induces single-strand breaks in plasmid pBR322 DNA in the presence of Fe^{2+} ions
J. Onuki, M.H.G. Medeiros, E.J.H. Bechara and P. Di Mascio (Brazil) 259
Fibroblast expression of collagens and proteoglycans is altered in aspartylglucosaminuria, a lysosomal storage disease
A. Määttä, H.T. Järveläinen, L.O. Nelimarkka and R.P. Penttinen (Finland) 264
The effects of LPS and probucol on interleukin 1 (IL-1) and platelet-derived growth factor (PDGF) gene expression in the human monocytic cell line U-937
S.-R. Li, L. Forster, E. Änggård and G. Ferns (UK) 271

In vivo glucose uptake and glucose transporter proteins GLUT1 and GLUT4 in heart and various types of skeletal muscle from streptozotocin-diabetic rats
H. Kainulainen, M. Breiner, A. Schürmann, A. Marttinen, A. Virjo and H.G. Joost (Germany, Finland) 275

G_4 forms of acetylcholinesterase and butyrylcholinesterase in normal and dystrophic mouse muscle differ in their interaction with *Ricinus communis* agglutinin
J. Cabezas-Herrera, M.T. Moral-Naranjo, F.J. Campoy and C.J. Vidal (Spain) 283

A monoclonal antibody directed to sulfatide inhibits the binding of human immunodeficiency virus type 1 (HIV-1) envelope glycoprotein to macrophages but not their infection by the virus
N. Seddiki, A. Ramdani, L. Saffar, J. Portoukalian, J.-C. Gluckman and L. Gattegno (France) 289

Gangliosides of *Echinococcus multilocularis* metacestodes
F. Persat, J.-F. Bouhours, A.-F. Petavy and M. Mojon (France) 297

Altered processing characteristics of β-amyloid-containing peptides in cytosol and in media of familial Alzheimer's disease cells
A. Matsumoto (Japan) 304

Changed affinity of apolipoprotein AII to high density lipoprotein (HDL) in patients with familial amyloidotic polyneuropathy (FAP) type I
Y. Tanaka, Y. Ando, T. Kumamoto, A. Miyazaki, M. Nakamura, M. Nakayama, S. Araki and M. Ando (Japan) 311

Deficiency of the E1β subunit in the branched-chain α-keto acid dehydrogenase complex due to a single base substitution of the intron 5, resulting in two alternatively spliced mRNAs in a patient with maple syrup urine disease
Y. Hayashida, H. Mitsubuchi, Y. Indo, K. Ohta, F. Endo, Y. Wada and I. Matsuda (Japan) 317

Lipid peroxide and reactive oxygen species generating systems of the crystalline lens
M.A. Babizhayev and E.B. Costa (Russia, Italy) 326

Rapid Report

Binding of nuclear proteins to transcription regulatory elements in selenium deficiency
M.J. Christensen and N.W. Pusey (USA) 338

Cumulative Contents, Vol. 1225 343
